## TWO MEXICANS KILLED

## SKIRMISH WITH TROOPS

(By Associated Press)

DOUGLAS, Ariz., March 5.—Mexican authorities at Agua Prieta declare two Mexican soldiers were killed yesterday in the skirmish with American troops.

PRINTING 12,000

STAMPS A MINUTE

It is a fact not generally known that the United States has at Washington, D. C., one of the largest and best equipped printing plants in this or any other country. Uncle Sam may be safely said to hold the world's record as a printer—not only in size of plant, number of employees and extent of output, but also in up-to-date scientific management, efficiency and economy.

An interesting example of what this sort of modern efficiency means is a machine which prints, gums and perforates 12,000 postage stamps a minute. Figuring on an eight-hour day, this is a production of 5,760,000 two-cent stamps worth \$115,200 as a day's work for the two operators required on the machine. The stamps are shot out—there is no other way to express it—at the rate of 70 feet a minute. This means over six miles of postage stamps a day.

The machine eliminates 19 separate operations required by the previous method of printing and has effected a saving of 57 per cent in cost. The whole apparatus, which is three feet wide, 25 feet long and seven feet high, is driven by a Crocker-Wheeler motor. One man and a girl are able to operate the entire machine and the perforating device connected with it. B. R. Stickney, mechanical expert of the United States bureau of printing and engraving, is the inventor who developed the machine for the special use of the government printing plant.

All you have to do is to ask for Schlitz in Brown Bottles.

Sunlight grows hops, but spoils the beer.

"Beer acted upon by light soon takes up the very disagreeable, so-called 'light taste,' and also a repulsive, skunk-like odor,"

says no less an authority than the Wahl-Henius Institute of Fermentology, the scientific authorities on the subject. "Beer so affected," they say, "is offensive to the palate of most consumers."

Light starts decay even in pure beer. Dark glass gives the best protection against light. The Brown bottle protects Schlitz purity from the brewery to your glass.

Why don't you, too, drink Schlitz? More and more people every year are demanding it.

We started in a hut. Today our agencies dot the earth. Our output exceeds a million barrels a year.

See that crouch or cork is branded "Schlitz."

## AMUSEMENTS

## Butler Theatre

The program at the Butler theatre this evening will be as follows: "The Mission of a Butler," a western drama produced by the Kalem company; "The Bravery of Dora," a Lubin comedy; "The Man He Might Have Been," an Edison drama. Presented from following his natural bent, a youth grows to old age haunted by the visions of what he might have been and his wrecked condition leads him into paths of rockiness. "Ma's Apron Strings," a Vitagraph comedy, featuring John Bunny. "Ernie" is a regular mama's boy. He has reached his majority, but his mother won't let him loose from her apron strings. She hates to have him out of sight. He finally meets a young

girl with whom he falls in love, and he is no longer mama's boy; he is somebody else's boy. His father is more than pleased to see Ernie assert his independence and he declares his manhood. There is great local color in this rural comedy that is exceedingly humorous. Friday, Pathe Weekly No. 3, showing many interesting events. Sunday a two reel Vitagraph feature, "The Re-incarnation of Karma."
